MEMORANDUM

TO: -

VIA:

FROM:

This document is part of an integrated  
file. It originated from the RIC. It must be  
subjected to individual systematic review.

1. Attached hereto are copies of Projects QKDEMON, JBEDICT and TPOASIS. These three projects were originally made in two copies only, of which one is in my files and one is in Registry. This distribution accorded with earlier procedures for project outlines. These three projects are the only ones now under my control of which CPP has not already received its copies.
2. It should be noted that, because of following the old procedure, Plans and Operations Officers have not been listed for these projects. I believe that I should be considered the Operations Officer for them and that CPP should appoint an appropriate Planning Officer.
3. In the future, all projects originated or coordinated by this branch will follow the presently prescribed procedure.
4. It should be noted that Projects QKDEMON and JBEDICT are simply names for the German Mission which has been established, and do not represent particular operations as such. Eventually both of these projects will be merged into an over-all T/O for Germany. Project TPOASIS is a subproject of QKDEMON.
5. The attached proposed amendment to Project QKDEMON has not, as of this writing, received final approval.
